ADVENTURES IN SAFETY TEN EVIL WARRIORS

1. **The Gift Giver**
We should never accept a gift from a grown up with out our parent's permission. The gift giver tries to trick a child into thinking he or she is nice by offering free gifts. If a grown up offers you a gift go tell your mom or dad immediately.
2. **Friendly:**
The friendly "evil warrior" gives you lots of attention. He will try to play with you if you are alone. We should never play with a grown up that we do not know or with out our parent's permission.
3. **The Game Player:**
The game player tricks us into believing that we will get a prize for playing a game with him. He or she will gain our trust and then try to touch us in places that are private. We never let anyone touch us in a place that makes us uncomfortable. No one is allowed to touch you where you wear your bathing suit.
4. **Helpless:**
The helpless evil warrior pretends to need help from you. Adults should never ask a child for help, they must go to another adult for help. Even if it's something important like helping them find their lost puppy, don't go because it's just a trick.
5. **Leader:**
The leader represents a person of authority like a police officer, or a teacher, or principal at your school. Never go away with any grown up with out your Mom and Dad's permission.
6. **Messenger:**
The messenger is a liar. He or she will tell you that your mom or dad was in an accident and they asked him to pick you up. Never go anywhere without your Mom and Dad's permission.
7. **Magician:**
The magician doesn't really know magic. He tricks you by figuring out your name. Maybe it is on your backpack, school bag or lunch box. Never go anywhere with anyone without your parent's permission.
8. **Promiser:**
Don't be fooled by a grown up that says he promises not to hurt you. Don't ever go anywhere with anyone without your Mom and Dad's permission.
9. **Cool:**
Who is really cool? A rock star, a cartoon hero. Never be tricked into going away with someone just because you think they are cool. Never go anywhere with anyone without your Mom and Dad's permission.
10. **Scary:**
The scary evil warrior waits for children to take a short cut or wander away and finds an opportunity to just grab the child and take them. Make sure that parents know where you are at all times. Scream loud if you taken by the scary evil warrior. All evil warriors hate attention so scream as loud as you can "I don't know you!"

Michael McCreery is the Head Instructor of Action Karate. Action Karate specializes in character development in children. Mr. McCreery specializes in helping children and adults raise their level of achievement. He is available for motivational, child safety and self defense seminars.
